Directions:
For this project you will be creating a book jacket based on the book, How Tia Lola Came to Stay. Be as creative as you’d like, pay attention to details, and make it interesting and informative for your audience.

- Use the large piece of construction paper (12x18) provided in this folder. Fold the paper in half. Then fold each end of the paper in 3 ½ inches to make the flaps.
- On the cover, write the title & author of the book. Draw & color a picture or design that reflects the important ideas of the story (DO NOT copy the cover of the book). The drawing can be on the front & back of the jacket.
- On the front inside flap, write a summary of the story in your own words and give your opinion of the book. Include what genre of book it is, who the main characters are, and the setting. This is similar to the Itty Bitty Book Talks you did in library this year.
- On the back inside flap, write a short paragraph about the author in your own words. Some information you may want to include is where the author lives, the author’s interests, and other books written by this author. You might need to research this info online.
- Write your name on the bottom of the back flap.
